

**TO SAN FRANCISCO**

Mr. and Mrs. Paul J. Beall of South Gramercy, left Friday last for San Francisco, where Mr. Beall attended the Masonic Grand Lodge session this week, representing Torrance Lodge No. 447 F. & A. M. His report will be given at a future stated meeting, when all Master Masons should be present.

**SUPERVISORS INVITE YOU**

Mr. C. P. ROBERTS, Editor.  
Gentlemen—Under instructions of the Board of Supervisors of Los Angeles County I extend to you an invitation to participate in the opening of the Malibu Road on Saturday, October 15, 1921.

The plans call for the formal opening of the road at 9 o'clock a Las Flores Canyon, being the easterly end of the Malibu Ranch, after which time the machines may proceed along the road, a distance of approximately twenty miles, to the Decker schoolhouse, where the settlers are giving a free barbecue to celebrate the opening of the road.

It is the purpose of the Board of Supervisors to establish a control upon the road, so that from 9 to 12 o'clock machines will only be permitted to go west on the road. Beginning at 2 o'clock, machines will be permitted to go east on said road.

This road is a graded dirt road and because of the large crowd which may be expected, the Board considers it necessary to take these safeguards in order to prevent accidents. It is expected 15,000 people will attend.

Kindly give us as much publicity as possible through your local press in order that the celebration may be a success.

Very truly yours,  
L. E. LAMPTON, Clerk.  
By A. M. McPherron, Deputy.

**MASONS INITIATE**

Torrance Lodge No. 447 F. & A. M. were in busy session last Saturday, when at 1 o'clock lodge was opened and not closed until after 9 p. m. During that time four third degrees were conferred, the hall being crowded when the last candidate received the mysteries of Masonry. Supper was served at 6:30, with Joe Stone in charge. The menu was elegant and the service from the able chef and attendants was noticeable for its speed and accuracy in counting noses. A large roast of beef had been in the oven of the Globe Bakery all day Saturday and was done to a deep brown. This, with combination salads, baked potatoes, buns, olives, celery, mince and raisin pie, proved a very delicious repast. During the serving a quartette sang and were repeatedly encored, calling back the Messrs. J. M. Fitzhugh, E. H. Nash, C. N. Curtiss and Fred Lessing, who also sang during initiatory work.

**SAVING THE STARVED**

English and Hungarian agricultural chemists have collaborated in the production of a soy bean that they say is going to bring back color into the famished cheeks of Europe. This improved bean is called "manna" and is promised to be all that and more. It is bread, butter, flour and milk. All these may be produced from it and it has a food value almost beyond belief. It is to be planted extensively through Eastern and Southern Europe, and in another season or so it will have become a staple and a life-saver. At least that is the way the prospectus reads so far as the laboratory experts have got them.
